

Suitable For:

- ▶ Functional and non-functional wood burning fireplaces
- ▶ Functional and non- functional wood burning stoves
- ▶ Non-functional gas fireplaces and stoves*
*Local gas company inspection and disconnection required

Features & Benefits:

- ▶ Operate on Sunjel™, Isopropyl Alcohol Gel; consistently tested for air quality assurance; guaranteeing a safe, clean burning fire, every time. Sunjel™ burns into water vapour, free of smoke, fumes, sparks and flying embers and is sold in 24 pk canisters
- ▶ The Sunjel Log & Grate Set offers a 'Real Crackling Fire' without exterior venting or a functional chimney, offering the customer a true un-compromised fire experience without the mess and fuss associated with burning wood or manufactured logs
- ▶ Minor assembly is required, provided the existing firebox is fireproofed to wood burning or natural gas standards**
- ▶ Approved as un-vented appliances; eliminating the need for electrical, mechanical, or natural gas services and the related monthly fees
- ▶ Concerns over smoke or flying embers, typically associated with burning wood, are completely eliminated, as Sunjel™ burns into water vapour, free of smoke, fumes, sparks or flying embers
- ▶ Our signature slide manual shut-off system is a standard feature for safety and convenience. If the Insert is not manually shut-down it will burn out in 2 to 3 hours; providing the owner peace of mind
- ▶ Owner controlled to burn at 3000, 6000, or 9000 BTU/hr. and because there is no exterior vent, the units operate at 99% efficiency
- ▶ Beautifully crafted hand painted, steel reinforced 'split cedar' ceramic logs are standard
- ▶ Aroma logs and aromatherapy oils can be added to further enhance the 'Real Fire' experience
- ▶ Associated costs of existing or future chimney repairs and annual maintenance costs are completely eliminated. The installation of a Sunjel Log & Grate Set does not affect the existing chimney or vent stack, allowing the customer the ability to repair the chimney in the future if desired
- ▶ Sunjel Log & Grate Sets can be installed at a fraction of the cost of all alternative 'Real Fire' options on the marketplace
- ▶ Sunjel Log & Grate Inserts are virtually maintenance free

*** The existing fireplace must be a wood-burning fireplace and must have a fireproofed firebrick interior or a steel fireproofed firebox interior. If the customer is unsure about the condition of their existing fireplace, it is recommended that they can get an assessment from their local chimney sweep company.*
